MIND BLOWING SOLUTIONS

Take your car wash
to the **next level**

A revolution in self-service car washes

We proudly present the **innovative Fuka dryer system** combining technology, luxury and modern design.

Equipped with advanced features, it allows the quick and safe drying of vehicles **without leaving streaks or water spots while minimizing the risk of scratches.**

The Fuka system was designed with efficiency and reliability in mind, providing unparalleled results with a **competitive edge.**

Impress your customers

drying quality unmatched by any other device on the market ●

vehicle shines like never before ●

during winter prevents critical points of the vehicle from freezing ●

minimizes adherence of dirt and dust to the paintwork ●

AN ENJOYABLE EXPERIENCE

After washing, undried moisture can trap more dirt and dust on paintwork, ruining its appearance.

By using **the most powerful touchless air blower on the market**, this problem disappears once and for all. With an airflow **exceeding 500 km/h**, not even the smallest speck of dust remains on the hood. Combined with a noise reduction system and air filters, the Fuka system makes drying a purely enjoyable experience.

A COMBINATION OF DESIGN AND FUNCTIONALITY

The Fuka system combines modern design and robust construction unparalleled in the industry. Its unique features provide a great user experience while providing the owner a competitive advantage.

Airflow

500+km/h

This unrivalled speed not only shortens the time needed to dry a vehicle but above all leaves the vehicle without streaks or water spots.

Air temperature

>20°C

The system heats air approximately 20 C above ambient temperature and heated air aids efficient and quick water removal in more colder or humid conditions.

Device power

3,6 Kw

Requiring less than half the power than competing devices, this improved efficiency lowers energy bills and is more environmentally friendly. Using single-phase, it can be easily installed without any major modifications.

The Fuka system
opens a new era
of vehicle care, providing
higher standards
and increasing
customer satisfaction.

INCREASE TURNOVER BY 10%

The Fuka system is more than just a car dryer.
**It is a strategic investment that upgrades your car wash to another level,
attracts new customers while increasing the loyalty of existing ones.**

We are the first in the industry to design a device
that not only impresses but above all, works!

Perfect for drying paintwork, it is effective in **removing water from
hard-to-reach places** including fuel cap, panel gaps, wheel rims, or front trim.

It is also ideal for bicycles, motorcycles, or ATVs, whose owners
are frequently enthusiasts who prioritize maintaining their equipment.

Furthermore, the Fuka system is not just an efficient dryer, it also improves
car wax cure times, giving vehicles an extraordinary, dazzling shine.

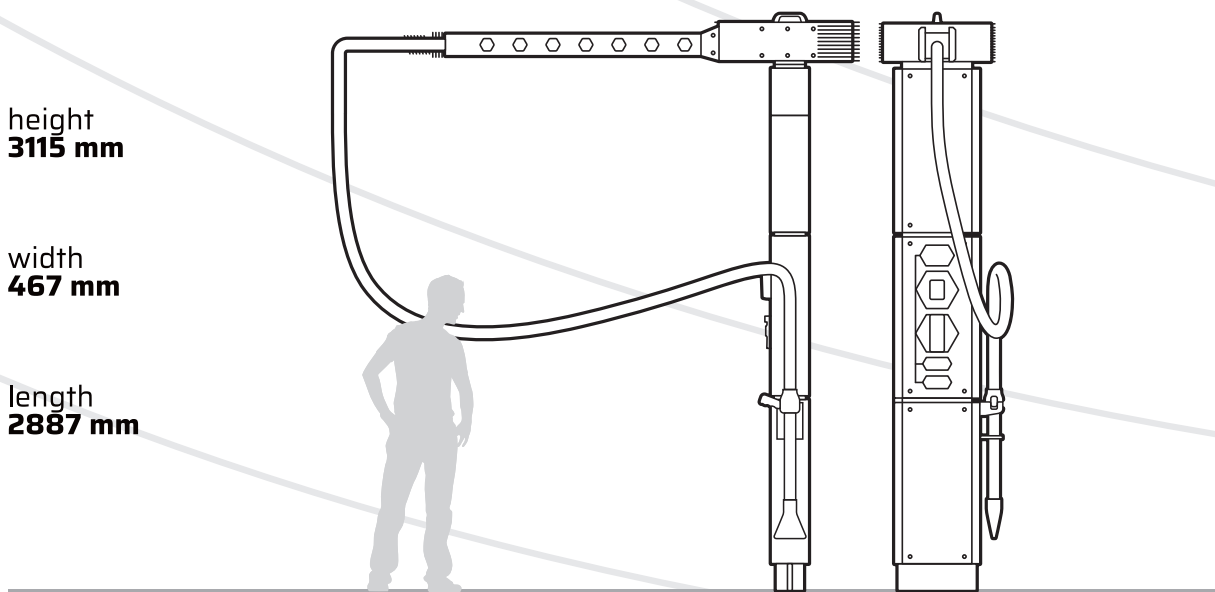

The Fuka system opens a new era of vehicle care, providing higher
standards and increasing customer satisfaction.

INNOVATION AND ADVANTAGE

The Fuka system provides a modern solution that sets your car wash apart from others and can provide a **significant increase in turnover**.

01

A programmable **Masterkey lock** allows simple and secure management of the device, minimizing the risk of unauthorized access.

02

The ergonomic nozzle combines a flexible, protected hose for **easy** and **precise use**, increases blowing efficiency, and protects the vehicle against scratches.

03

The Fuka system's **single-phase requirements** ensures easy installation, minimal wiring, and provides energy bill savings.

The Fuka system combines **creativity** and **technological precision** and has been developed thanks to meticulous R&D conducted at renowned universities. It uses **advanced robotics solutions** previously unseen in the industry resulting in a world-class device.

YOUR INVESTMENT IN THE FUTURE OF CAR WASHING

Stylish, safe, touchless, and quick vehicle drying ●

Raises the standards of your car wash and the quality of the wash, **attracting new customers** ●

Provides savings and improves business profitability ●

Hassle-free installation and **solid after-sales** and **marketing support** ●

The Fuka system delivers a critical step that no customer will overlook!

Join the group of satisfied car wash owners who have opted for our **mind-blowing solutions!**
